ABOUT US

We help you win public support.

Dewey Square Group was founded in 1992. We help businesses, non profits, campaigns, and causes achieve their public affairs goals – whether they be favorable legislative or policy outcomes, successful advocacy efforts, community-based consumer marketing, or high-profile awareness campaigns.

Making Clients Successful

DSG helps clients succeed by applying campaign-style strategies that help win the support of opinion leaders and the public. Our team is led by some of the nation's leading strategists and tacticians — professionals with impressive track records of success in the political and corporate arenas before joining DSG.

Fully Integrated Public Affairs

Dewey Square Group first made its mark on the public affairs sector as a pioneer of highly effective grassroots strategies and tactics. In the last decade, we've emerged as a leader in the application of digital techniques, and built a unique and specialized practice around multicultural outreach. We also offer a complete suite of integrated public affairs capabilities including public relations, strategic and crisis communications, and community-based consumer marketing.

Local Knowledge, Nationwide Reach

For nearly 25 years, we've been building a nationwide presence that includes deep local relationships and execution capability in all 50 states, enabling us to adapt to fast-moving environments, scale quickly and deliver results.

Dewey Square Group is a Hill+Knowlton Strategies company.
